

## SAFETY DATA SHEET

According to the Hazard Communication Standard, 29 CFR 1910.1200

SDS # : 083418

### PRIMERA 220

Date of the previous version: not applicable

Revision Date: 2016-01-15

Version 1

#### 1. IDENTIFICATION

##### Product identifier

Product name PRIMERA 220

##### Other means of identification

Product Code(s) 083418

Number 86E  
Substance/mixture Mixture

##### Recommended use of the chemical and restrictions on use

Identified uses Compressor oil.

Uses advised against Do not use for any purpose other than the one for which it is intended

##### Details of the supplier of the safety data sheet

Supplier Address TOTAL Specialties USA Inc  
1201 Louisiana Street, Suite 1800  
Houston, TX 77002  
Phone: +1 800 323 3198

Contact Point Technical/ HSEQ

E-mail Address USRMLIN-info@total.com

##### Emergency telephone number

Company Phone Number +1 (908) 862-9300  
Emergency telephone CHEMTREC: +1 800 424 9300 (24h)

#### 2. HAZARDS IDENTIFICATION

##### Classification

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

##### Label elements

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Version GNAM

SDS # : 083418

## PRIMERA 220

Date of the previous version: not applicable

Revision Date: 2016-01-15

Version 1

### Unknown Acute Toxicity

No information available

### Hazards not otherwise classified (HNOC)

None known

### Other information

**Physical-Chemical Properties** Contaminated surfaces will be extremely slippery.

**Environmental properties** Should not be released into the environment.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### Mixture

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). The product contains no substances which at their given concentration, are considered to be hazardous to health.

## 4. FIRST AID MEASURES

### First aid measures for different exposure routes

|                       |   |
|-----------------------|---|
| <b>General advice</b> | IN CASE OF SERIOUS OR PERSISTENT CONDITIONS, CALL A DOCTOR OR EMERGENCY MEDICAL CARE.   |
| <b>Eye contact</b>    | Rinse thoroughly with plenty of water, also under the eyelids. If symptoms persist, call a physician.   |
| <b>Skin contact</b>   | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician. Wash contaminated clothing before reuse. |
| <b>Inhalation</b>     | Inhalation of high concentrations of vapor or aerosols may cause irritation of the upper respiratory tract. Consult a physician.  |
| <b>Ingestion</b>      | Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.   |

### Most important symptoms/effects, acute and delayed

|                     |  |
|---------------------|--|
| <b>Skin contact</b> | Not classified. Causes mild skin irritation. |
| <b>Eye contact</b>  | Not classified. May cause slight irritation. |

Version GNAM

SDS # : 083418

## PRIMERA 220

Date of the previous version: not applicable

Revision Date: 2016-01-15

Version 1

|                   |   |
|-------------------|---|
| <b>Inhalation</b> | Not classified. Avoid breathing vapors or mists.  |
| <b>Ingestion</b>  | Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. |
| <b>Symptoms</b>   | Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.            |

### Indication of immediate medical attention and special treatment needed, if necessary

**Notes to physician** Treat symptomatically.

## 5. FIRE-FIGHTING MEASURES

**Suitable Extinguishing Media** Carbon dioxide (CO<sub>2</sub>). Dry chemical. Foam. Water spray. Cool containers / tanks with water spray.

**Unsuitable Extinguishing Media** Do not use a solid water stream as it may scatter and spread fire.

**Special Hazard** Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high concentration.

### Explosion Data

**Sensitivity to Mechanical Impact** None.  
**Sensitivity to Static Discharge** None.

**Protective Equipment and Precautions for Firefighters** As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Evacuate non-essential personnel.

## 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

**General Information** Do not touch or walk through spilled material. Use personal protective equipment. Ensure adequate ventilation. Contaminated surfaces will be extremely slippery.

**Other information** See Section 12 for additional information.

### Environmental precautions

**General Information** Do not flush into surface water or sanitary sewer system. Should not be released into the environment. Local authorities should be advised if significant spillages cannot be contained. See Section 12 for additional Ecological Information.

### Methods and materials for containment and cleaning up

**Methods for cleaning up** Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.

### 7. HANDLING AND STORAGE

#### Precautions for safe handling

|   |  |
|---|--|
| <b>Advice on safe handling</b>          | When using, do not eat, drink or smoke. For personal protection see section 8. Use only in well-ventilated areas. Do not breathe vapors or spray mist. Avoid contact with skin, eyes and clothing.   |
| <b>Prevention of fire and explosion</b> | Take precautionary measures against static discharges. Ground/bond containers, tanks and transfer/receiving equipment.   |
| <b>Hygiene measures</b>                 | Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into workwear pockets. |

#### Conditions for safe storage, including any incompatibilities

|  |  |
|--|--|
| <b>Technical measures/Storage conditions</b> | Keep away from food, drink and animal feedingstuffs. Keep in a banded area. Keep container tightly closed. Keep preferably in the original container. Otherwise reproduce all indication of the regulation label on the new container. Do not remove the hazard labels of the containers (even if they are empty). Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot casings or electrical contacts. Protect from frost, heat and sunlight. Protect from moisture. |
|--|--|

|                           |   |
|---------------------------|---|
| <b>Materials to Avoid</b> | Strong acids, Strong bases, Oxidizing agents. |
|---------------------------|---|

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

|                        |  |
|------------------------|--|
| <b>Exposure limits</b> | Mineral oil mist:<br>USA: OSHA (PEL) TWA 5 mg/m <sup>3</sup> , NIOSH (REL) TWA 5 mg/m <sup>3</sup> , STEL 10 mg/m <sup>3</sup> , ACGIH (TLV) TWA 5 mg/m <sup>3</sup> (highly refined). |
|------------------------|--|

#### Exposure controls

|                             |  |
|-----------------------------|--|
| <b>Engineering Measures</b> | Apply technical measures to comply with the occupational exposure limits. When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment. |
|-----------------------------|--|

#### Individual protection measures, such as personal protective equipment

|                            |   |
|----------------------------|---|
| <b>General Information</b> | Protective engineering solutions should be implemented and in use before personal protective equipment is considered. |
|----------------------------|---|

Version GNAM

SDS # : 083418

## PRIMERA 220

Date of the previous version: not applicable

Revision Date: 2016-01-15

Version 1

|                                 |  |
|---------------------------------|--|
| <b>Eye/Face Protection</b>      | If splashes are likely to occur, wear: Safety glasses with side-shields.   |
| <b>Skin and body protection</b> | Wear suitable protective clothing. Protective shoes or boots.  |
| <b>Hand Protection</b>          | Nitrile rubber. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.   |
| <b>Respiratory protection</b>   | If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.  |
| <b>Hygiene measures</b>         | Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into workwear pockets. |

### 9. PHYSICAL AND CHEMICAL PROPERTIES

#### Physical and chemical properties

|                             |                        |                          |                         |
|-----------------------------|------------------------|--------------------------|-------------------------|
| Appearance                  |                        | limpid                   |                         |
| Color                       |                        | amber                    |                         |

**10. STABILITY AND REACTIVITY**

|  |   |
|--|---|
| <b><u>Reactivity</u></b>                         | None under normal processing.   |
| <b><u>Chemical stability</u></b>                 | Stable under recommended storage conditions.  |
| <b><u>Possibility of hazardous reactions</u></b> | None under normal processing.   |
| <b><u>Conditions to Avoid</u></b>                | Heat (temperatures above flash point), sparks, ignition points, flames, static electricity. |
| <b><u>Incompatible Materials</u></b>             | Strong acids, Strong bases, Oxidizing agents.   |
| <b><u>Hazardous Decomposition Products</u></b>   | Thermal decomposition can lead to release of irritating gases and vapors.                   |

**11. TOXICOLOGICAL INFORMATION****Information on likely routes of exposure**

|                                     |   |
|-------------------------------------|---|
| <b>Principle Routes of Exposure</b> | Inhalation, Ingestion, Eye contact, Skin contact.   |
| <b>Symptoms</b>                     | Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.            |
| <b>Skin contact</b>                 | Not classified. Causes mild skin irritation.  |
| <b>Eye contact</b>                  | Not classified. May cause slight irritation.  |
| <b>Inhalation</b>                   | Not classified. Avoid breathing vapors or mists.  |
| <b>Ingestion</b>                    | Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. |

| <b>Sudden Release of Pressure Hazard</b> | no |
| <b>Reactive Hazard</b>                   | no |

**Clean Water Act**

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

**Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)**

This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

**CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

**U.S. State Regulations****California Proposition 65**

This product does not contain any Proposition 65 chemicals.
